

AUTM Connect & Collaborate

Kim MacMartin-Moglia

Director, Business Development - Inova Diagnostics

10/16/2020

Inova Diagnostics: Our Mission and Objectives

- Founded in 1987, with a dedication to in vitro diagnostics in the field of autoimmunity
- Global market leader in autoimmunity

Mission:

Help labs improve the way patients with autoimmune diseases are diagnosed, monitored and treated

Objectives:

Deliver solutions which anticipate the needs of the autoimmune laboratory through:

- Improvement of the efficiency and quality of testing
- Development of new biomarkers to help diagnose, stratify and monitor patients with complex diseases

Inova Diagnostics Licensing Interests - Summary

Disease Areas:

Rheumatology –

- RA
- Lupus
- MS
- APS
- Scleroderma
- Polymyositis
- Dermatomyositis
- Scleroderma
